

Philippine Food Safety Risk Profiling Project  
Under the DOST Integrated Food Safety Program  
DOST Funded Project No.: 05340

# Pagkaing PINASafe:

A series of  
Capacity-Building  
Activities to Support  
Philippine Food Safety  
Efforts Webinar Series

December 2020 to November 2021  
via  
Zoom Online Platform

## Webinar Series Objectives and Timeline

The seminar’s general objective is to transfer the established system of risk analysis under Philippine scenario to risk managers and risk assessors for proper action and implementation.

| Specific Objective   | Webinar Topic  | 2019 | 2020 | 2021 |     |     |     |     |     |     |     |     |     |  |
|--|--|------|------|------|-----|-----|-----|-----|-----|-----|-----|-----|-----|--|
|  |  | Dec  | Jan  | Feb  | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov |  |
| 1. To strengthen the capacity of potential risk assessors, in conjunction with the functions of risk managers, in data collection for food safety risk profiling | Strengthening Capacity in Data Collection and Generation for Food Safety Risk Profiling                                    |      |      |      |     |     |     |     |     |     |     |     |     |  |
| 2. To capacitate individuals with knowledge and awareness on the general aspects of food safety risk assessment  | Food Safety Risk Assessment 101: Basics on Ensuring Food Safety from Farm-to-Fork (A tripartite subseries)                 |      |      |      |     |     |     |     |     |     |     |     |     |  |
| 3. To train a selected pool of potential risk assessors on food safety risk assessment under Philippine scenario   | E-QUIP: An Intensive Online Workshop on Chemical and Microbiological Food Safety Risk Assessment under Philippine scenario |      |      |      |     |     |     |     |     |     |     |     |     |  |
| 4. To communicate, through a forum, the results of the intensive training to food safety risk managers and other relevant stakeholders, for proper action.       | To be announced  |      |      |      |     |     |     |     |     |     |     |     |     |  |
