MEMORANDUM NO. FRN-20-058

TO : Deans, Directors and Heads of Units

SUBJECT : Suspension Guidelines for Storm Signals During Remote Learning

---

Please be informed of the following guidelines for storm signals during remote learning. The guidelines should be applied with consideration for the students' place of residence, or where they have chosen to participate in synchronous or asynchronous classes.

- Storm signal number 1: Online synchronous classes are suspended due to internet connectivity issues caused by the typhoon.
- Storm signal number 2: Online synchronous classes are suspended due to internet connectivity issues, as well as possible power and telecommunication service interruption caused by the typhoon. The faculty is requested to extend leniency and flexibility (especially to students from affected areas) by postponing submission deadlines.
- Storm signal number 3 and above: Both synchronous and asynchronous classes are suspended due to internet connectivity issues, as well as possible power and telecommunication service interruption caused by the typhoon. The faculty is requested to refrain from asking students to submit any class requirements.

Thank you.

FIDEL R. NEMENZO, D.Sc.  
Chancellor
